Július Kicsindy

Frontend Web Developer

A passionate front-end developer with over five years of experience specializing in building dynamic and user-friendly web applications. Adept at using modern web technologies like TypeScript, React.js, and Tailwind CSS. Committed to staying at the forefront of industry trends, I am driven by the goal of delivering high-quality interfaces.

Education

2024
Master's Degree in Computer Science
Eötvös Loránd University (ELTE)

2022
Bachelor's Degree in Computer Science
J. Selye University

Expertise

- React
- Next.js
- Tailwind CSS
- TypeScript
- JavaScript

Language

- **English**
- **Hungarian**
- **Slovak**

Experience

2023 – 2025
Leaf Software Development Kft.
Frontend Developer

- Developed and maintained responsive, user-friendly web applications for clients across various industries.
- Worked with TypeScript and React.js to build scalable frontend solutions, enhancing user experience and improving page load times.
- Collaborated with backend developers to integrate REST APIs and handle asynchronous data flows.
- Regularly updated applications based on client feedback, ensuring seamless functionality and interface improvements.
- Introduced the use of Tailwind CSS and Next.js in projects, improving overall design efficiency and development speed.

2019 - 2022
J. Selye University
Frontend Developer

- Developed monitoring applications and dashboards for the university's Insider school system using React.js.
- Collaborated with academic departments to build custom solutions for tracking and visualizing student performance data.
- Optimized system performance by implementing real-time data processing and intuitive user interfaces.
- Supported the continuous improvement of the school's internal systems through feature updates and bug fixes.

2018 - 2019
Freelance Frontend Developer

- Built custom web solutions for small businesses, including landing pages, portfolios.
- Developed reusable components with React.js to streamline project delivery and ensure consistent code quality.

Technologies I worked with

Frontend

- TypeScript
- React.js
- Next.js
- Tailwind CSS
- React Libraries:
  - Shadcn/ui
  - Material UI
  - Zustand
  - Zod
  - React Hook Form
  - TanStack Query
  - Socket.IO

Backend

- Node.js
- Express.js
- Nest.js

Database

- MySQL
- PostgreSQL
- MongoDB
- InfluxDB
- ORMs: Prisma, Drizzle
- Serverless: Neon

Tools & Platforms

- **Version Control**:
  - Git, GitHub
- **DevOps:**
  - Docker
  - Vercel
- **Testing:**
  - Cypress
  - Playwright
- **Authentication**:
  - Kinde
  - JWT
- **CI/CD:**
  - GitHub Actions,
